DYSPEPSIA

Is that misery experienced when suddenly made aware that you possess a diabolical arrangement called stomach. No two dyspeptics have the same predominant symptoms, but whatever form dyspepsia takes

The underlying cause is in the LIVER,

and one thing is certain no one will remain a dyspeptic who will

Start the Liver working and all bodily ailments will disappear.

"For more than three years I suffered with Dyspepsia in its worst form. I tried special doctors, but they afforded no relief. At last I tried Simmons' Liver Regulator, which cured me in a short time. It is a good medicine. I would not be without it."—JAMES A. ROANE, Philad'a, Pa.

See that you get the Genuine, with red Z on front of wrapper. PREPARED ONLY BY J. H. ZEILIN & CO., Philadelphia, Pa.

Parrying Pertinent Queries. While the method of answering one question by asking another is perhaps not one to be commended, there are certainly some circumstances under which it is allowable.

There are some people who delight in asking personal questions, no matter how embarrassing and unnecessary they may be, and who insist upon some sort of an answer.

A young author, whose opinion about people and things in general is considered worth finding out, says he has adopted a method of parrying the disconcerting questions so often put to him by almost total strangers, which proves successful in nearly every instance.

"When a woman to whom I have just been introduced at a literary evening asks me 'if I really like this sort of entertainment' in a confidential tone," remarks this much questioned man, "I always ask her, just as confidentially, 'Do you?' and she seldom makes any further inquiries."

"And when a man buttonholes me in a secluded corner, and says: 'Come now, as a matter of fact, do you like young Dabster?' Do you think he will ever amount to anything? I look him right in the eye and say, 'Do you?' and he generally understands what I mean."

There are some questions which can be better answered in this way than in any other, for every person has a right to withhold his own opinion from prying interrogators, who usually have nimble tongues and do not scruple to use them.—Youth's Companion.

Girls and Their Mothers.

It is by no means an uncommon occurrence to hear girls complain of the partiality that mothers display toward their sons. It might naturally be supposed that if preference of any kind should be shown by a mother to her children the girls would be the favored ones, because who is better acquainted with the many disadvantages, compared to boys, under which girls are placed, and also their need for guidance and protection, than a mother herself?

There is also the common ground of sex, which one is apt to think would draw mothers and girls into closer bonds of companionship. But how many girls are in the happy position of possessing mothers to whom they can turn in times of uncertainty, and into whose sympathetic ears they can pour without restraint and in absolute confidence all the joys and troubles, the hopes and fears and the numerous little affairs incidental to girlhood, and which, if told at all, must be whispered into the ears of one of their own sex?

That there are many mothers to whom every secret of a girl's heart can be unfolded without fear, one does not deny; that there are many—perhaps more—mothers to whom their daughters are literally strangers on such subjects is a well known fact.—London Tit-Bits.

When They Become Acquainted. "I knew that woman when she lived in an attic." "Yes, I can remember that time perfectly. It was when you were living in the basement of the same house." Then there was a silence, and the waves gossiping to the beach had it all to themselves.—Boston Saturday Gazette.

Rub the Gums Well with SOZODONT when they become spongy or detached from the neck of the teeth. Let them bleed freely and so recover their tone and health. This SOZODONT is the best remedial agent for diseased gums and teeth. Try and learn.

SILVER PARTY TICKET.

FOR PRESIDENTIAL ELECTORS:

HON. THOMAS WREN,
Of Esmeralda.HON. M. S. BONNIFIELD,
Of Humboldt.HON. C. C. POWNING,
Of Washoe.

ALTERNATE ELECTORS:

HON. GEO. S. NIXON, Of Humboldt.

HON. GEO. BROWN, Of Storey.

HON. W. J. WESTERFIELD, Of Lyon.

THE SILVER LEAGUE CONVENTION

A circular from the Executive Committee of the Humboldt county Silver League, addressed to the Silver Leagues of Nevada, has been received by the Secretary of the Washoe county Silver League. Under the provision of Section 12 of the Australian ballot law it is imperatively necessary that the names of the candidates for President and Vice President shall precede the names of the Silver party electors. As there is only one national ticket in the field which unequivocally favors free coinage and the electors of the Silver party are pledged against all candidates who are not in favor of such coinage, the convention must necessarily endorse that ticket and resolve that the names of its candidates—Weaver and Field—shall precede the names of the electors on the ballot.

The circular states that action on this matter requires immediate attention, as the nominating petition must be signed and filed with the Secretary of State thirty days before election.

The Silver Leagues should at once select delegates to this convention, though, as the JOURNAL understands it, according to the call every member of the League is entitled to a seat in the body.

As the primary, and in fact the only object of the League is to secure the remonetization of silver, the convention will reserve to itself the right to further instruct its nominees for Presidential electors whom to vote for should a contingency at present unforeseen arise. It may be possible, as General Weaver declared when here, that he may not have votes enough to elect him, in which event he would endeavor to give his votes and his influence to a free coinage man who could be elected, if such a person could be found. Though such a contingency is improbable, yet strange things occur in politics, and it is well enough to be prepared by reserving the right to further instruct the Presidential electors. The silver men of Nevada are in the fight for free coinage and they must leave nothing undone to secure it.

THE POPULISTS ORGANIZE.

The People's party of Washoe county was formally organized last evening by a large number of citizens, many farmers being in attendance. A general platform was adopted, it being left to the regular county convention of the party, which will meet at a later day to present local issues. The meeting was harmonious, former Republicans and Democrats vying with each other in their devotion to the new organization.

Similar action is being taken in many other counties in the State. Esmeralda has elected delegates to a People's party convention. The Populists of White Pine and Nye have already organized, and the JOURNAL is informed that they will have tickets in Elko and Lander. In Humboldt there are not even skeletons of the old parties left, and late reports from Churchill indicate that the People's party will organize in that county, as a majority of the citizens are Populists.

It is not necessary to reiterate the causes of this general uprising. The people are satisfied that Wall street influences control the old parties, and they are arraying themselves against the favored classes. The revolution is general throughout the South and West and it will take millions of Wall street's ill-gotten gains to prevent it from sweeping its minions from power in the legislative and executive departments of the Government.

FINANCIAL MAXIMS.

Gold and silver should not be bought or sold in by our Government.

Gold and silver should be coined by the Government for the owner, to be used in payment of debt.

Money is the initial point in commercial transactions.

Legal tender is a creation of law and imparts to money the function to completely answer commercial demand. That makes money power property.

Value is that which is an object of human desire and can only be obtained by human effort.

Labor creates ninety nine and one-half per cent. of all value.

Price is the sum of money asked for anything of value.

As labor creates value when prices fall labor is hurt.

TELEGRAPHIC NEWS

Meyer Knocked Out By McAuliffe in the Fifteenth Round.

New Orleans, September 5.—Meyer was knocked out by McAuliffe in the fifteenth round at 10:15 to-night.

The rain chased the sports down to the club earlier than they would have gone otherwise. Long before twilight was headed down town began to fill up and the crowds on the cars continued to grow.

Meyer was the first on the ground. After a day's rest in Carrollton, he got into a carriage with Alf Eshenady and trainers and drove leisurely down to the club. Meyer and party went secretly to a room with the crowd at their heels, and Billy Stripped while waiting for weighing time. McAuliffe and body guard reached the club a trifle later.

Ex-Mayor Guillot entered the ring at 9:10 and as master of ceremonies made a speech. Immediately after Prof. John Duffy entered the arena, as referee, closely followed by Capt. Wm. Barrett, who had charge of the contest. Meyer and McAuliffe weighed in at 245; Meyer at 137½ and McAuliffe at 137½. Capt. Barrett weighed the gloves and found them according to law, full five ounces. Sixty-five hundred people are said to have been present and even that number failed to fill the mammoth arena.

The men were ordered to shake hands at 9:20 and as the song for the first round sounded the men jumped to the center of the ring. McAuliffe looking pale and Meyer rosy. Mac led for the stomach but slipped and fell on regaining his feet. Meyer landed a landed a light left and Jack smiled. Both men were extremely cautious though Mac was the aggressor.

Second.—Mac landed a heavy right hander, Meyer clinched, delivering a heavy right himself. Mac knocked Meyer down with a heavy right on the eye. Just as the round ended Meyer floored with a heavy right and left on the face. McAuliffe looked ten to one shot at this stage of the game for he was fighting a fast and furious battle.

Third.—Both men were weak from tremendous exertions, though McAuliffe seemed the stronger of the two. The latter landed several left handed stomach punches and Meyer clinched after receiving a right on the jaw. It was McAuliffe's round and Meyer was plainly in distress.

Fourth.—Both men eager to fight and both men landed light blows on the head and stomach.

From the fifth to the ninth were spent in giving and taking blows on each side.

Ninth.—McAuliffe nearly knocked Meyer out with a right-hand swing. Meyer fell from exhaustion and refused to arise. Meyer fell on the ropes and fell from right and left handers on the head. The Westerner looked beaten now and nearly fell from one of his misses.

Tenth.—Meyer was waiting for a famous right jolt and got it in with terrific force, though McAuliffe did not fall. McAuliffe received a heavy right on the side. Meyer got a double compliment. The round was McAuliffe's.

Eleventh.—Nice boxing occurred, though Meyer received the worst of it in a heavy rally.

Twelfth.—The referee jumped to the center of the ring and, of Meyer's gloves, though nothing unfair was attempted, and the men were permitted to box.

Thirteenth.—McAuliffe landed a left hander on the face and Meyer clinched. In the rally both men landed blows on the head, Meyer getting the best of the exchange.

Fourteenth.—Terrific blows were landed followed by a neat bit of boxing. McAuliffe attempted a feint with his left for the stomach. Meyer would not bite, however, and the round ended with honors easy.

Fifteenth.—The opening was characterized by several awkward attempts on the part of both men, and the audience cheered when Meyer was knocked down with a heavy right. McAuliffe knocked him down again as he got up. This time he lay helpless on the ropes until he was counted out. It was a heavy right hand swing that did the trick, and McAuliffe was borne triumphantly on his second's shoulders to his corner. The Williamsburger was made the recipient of a hearty applause, notwithstanding the fact that New Orleans is known as Meyer City. The Williamsburger's seconds opened champagne in the corner, while Meyer was offered a glass of wine by his conqueror, which he accepted, and a hearty handshake wound up the battle.

Silver Not Mentioned in Harrison's Letter of Acceptance.

WASHINGTON, Sept. 5.—President Harrison's letter of acceptance of his nomination by the Republican National Convention which was made public to-day expresses his gratitude for the approval of his administration by the Minneapolis Convention. He states that owing to the vote of want of confidence in the administration which is asked by the Democratic party, he proposed to accept the challenge and review what has been done by the administration and the Republican party. The President first refers to the fact that the Republican party during the Civil war advised that the National currency consisting of United States notes and National Bank notes, and issues of State banks be withdrawn, so that now all paper money has the credit of the government behind it and is accepted at par. The President then says that the Democratic party is now pledged to repeat the tax on State bank issues with a view of putting into circulation again a flood of local bank issues. The President says that the declaration of platform in favor of the American doctrine of protection meets his most hearty approval. The convention did not adopt a schedule but a principle that is to control all the tariff schedules. The Democratic party has now practically declared that, if given power, it will enact a tariff law without any regard to its effect upon wages or upon capital invested in

our great industries. He says this destructive, un-American doctrine was not held or taught by historic Democratic statesmen, certainly not by Jefferson or Jackson; their present doctrine makes a crusade against American shops; bitter epithets are applied to American manufacturers. Persistent disbelief of every report of opening of tin plate mills or of increase in our foreign trade by reciprocity are almost as surprising as they are discreditable. There is not a thoughtful business man in the country who does not know that the enactment into law of the declaration of the Chicago convention on the subject of the tariff would at once plunge the country into a business convulsion such as it never seen, and there is not a thoughtful workman who does not know that it would at once enormously reduce the amount of work to be done in this country by increasing importations that would follow and necessitate the reduction of his wages to the European standard. The President next refers to the deplorable condition into which the American merchant marine has fallen and he mentions the mail subsidy law which was passed by the Fifty-first Congress and declared that the results of its beneficent influence are already seen and that more favorable results are about to be realized. He says the Democratic party found no place in the platform for this subject and has shown its hostility to the general policy. The letter next refers to the reciprocity policy now in operation with a number of nations, and says great credit is due Mr. Blaine for the vigor with which he pressed the subject upon the country. The President says we have only begun to reap the benefits of these trade arrangements, and he cites statistics showing the benefits already derived from the reciprocity policy.

UNIVERSITY MATTERS

The Attendance Larger Than Ever.

The registration for the first day at the University shows the following members of the graduating class of the Reno High School: Misses Mary E. Steele, Alice G. Kline, Laura Smith, Hazel B. Rollison, Louise Frey, Hattie Ridenour and Mildred Wheeler. Messrs. Theodore Clark, Fred Waltz, Otto Williams, Martin P. Ward, Edmund Lachman and William H. Seagraves. This makes thirteen out of sixteen graduates, an excellent showing for Reno's public school.

Among the new names on the register for the first day are Geo. A. Hill, Eureka; Lydia Lenkey, Verdi; Arthur P. Mack, Maria Robb, Leonard Wheeler, Adelaide Boyd, Anna Beck, Edith Newlands, Janet Newlands, Lena Monroe, Ella Smart, all of Reno. Lillian Kelly, Crescent Mills; Mary H. Noddenrup, Mokaville; Emmet A. Powell, Eagleview; Ulysses Hanson, Fred Nishel, Mabel Godfrey, of Virginia; Clara M. Eldred, Big Pine; Wm. T. Sauer, Washoe; May E. McAfee, Candelaria; Theodore R. Hofer, Kate McCurdy, Edna M. Oatlin, Carson; Gertrude Heronynous, Cedarville; Nellie Murphy, Empire and Clara McGonigle of Winnemucca.

The foregoing is only a partial list of those present, and does not include those who have yet to take examinations. The attendance promises to be very full and the class of students from all quarters is very good, being a decided improvement on the past. Nearly all the old students have returned and the registration will probably be larger than ever.

The mechanical feature is attracting many students. A full list of students will be given in a day or two.

THE TENNIS TOURNAMENT.

The Gentlemen's "Finals" Are Finished.

The gentlemen singles in the tennis tournament between Phillips and Moore to decide the championship of the State of Nevada was played off this evening and resulted in a victory for the former. The match was the best three in five sets and at a beginning two sets were in favor of Phillips (having been played Saturday evening) and the third set went to Moore after some very hard playing. The fourth and last set proved to be the most interesting and was pronounced by all the on-lookers the best tennis ever witnessed here. Moore had the advantage and only needed one point to give him the set no less than six times, but the task was too much for him to overcome, and the game that made the set stand five all contained eight vantage points, and then the next two games went to Phillips, giving him the set and match and State championship.

The score was as follows: 6-3, 6-4, 4-6, 7-5.

At the conclusion Phillips was presented with a beautiful watch chain donated by Hon. P. G. Newlands. This chain must be won three times before it becomes the personal property of anyone. To-morrow evening the mixed doubles will be played off but will probably not be finished before Wednesday evening.

Advertised Letters.

4w

The Palace Hotel, which is well and favorably known to every old Nevada, is being conducted as usual by that veteran landlord, Al White, who spares neither pains nor pains to provide for the comfort and convenience of guests.

WEAVER IN THE SOUTH.

The New York Sun admits that General Weaver is likely to carry every Southern State except Maryland, Kentucky and probably Arkansas, and asks: "What is the solution of the question which thus forces itself upon the consideration of the Democratic chiefs in the North? It would be idle to expect improved Democratic prospects from dry debates, dreary schedule controversies and arguments on economic questions, which, instead of uniting, tend only to further rend, separate and embitter the feelings of the dissentients and malcontents, and thus enormously increase the influence and chances of the third party, thereby imperiling Democratic success throughout the South."

Better Than a Savings Bank.

If you have faith in the future prosperity of the city of Reno, Nevada, invest in well located town lots and you will surely double your money in the next few years. If you cannot buy a lot yourself you can take stock in the Reno Real Estate and Investment Co., and participate in the investments that this corporation will make. The company proposes to purchase centrally located property and erect suitable buildings thereon, obtaining immediate revenue from rents and receiving all benefits from increase in values.

RENO REAL ESTATE AND INVESTMENT COMPANY

DIED.

THOMAS—At Al's ranch, near Glendale, September 4, Peter Thomas, a native of Germany, aged 104 years.

Be Sure

If you have made up your mind to buy Hood's Sarsaparilla do not be induced to take any other. Hood's Sarsaparilla is a peculiar medicine, possessing, by virtue of its peculiar combination, proportion, and preparation, curative power superior to any other article. A Boston lady who knew what she wanted, and whose example is worthy imitation, tells her experience below:

To Get

"In one store where I went to buy Hood's Sarsaparilla the clerk tried to induce me to buy their own instead of Hood's; he told me their was no difference; that I might take it on my 'day's trial'; that if I did not like it I need not pay anything, etc. But he could not prevail on me to change. I told him I knew what Hood's Sarsaparilla was. I had taken it, was satisfied with it, and did not want any other."

Hood's

When I began taking Hood's Sarsaparilla I was feeling real miserable, suffering a great deal with my kidneys, and so weak that I could hardly stand. I took it, and had for some time, like a person in consumption. Hood's Sarsaparilla did me so much good that I wonder at myself sometimes, and my friends frequently speak of it." Mrs. Kella A. Gorr, of Terrace Street, Boston.

Sarsaparilla

Sold by all druggists, \$1; six for \$5. Prepared only by C. L. HODG & CO., Apocryphical, Lowell, Mass. 100 Doses One Dollar

NEW TO-DAY.

Bargains in cook stoves, heating stoves, ranges and house furnishing goods at Lange & Schmidt.

Joseph Germain of Winnemucca came to town Sunday with his son Frank, who comes to attend the State University.

Mrs. Carrie Clarke Ward arrived from Oakland, Cal., yesterday, and will spend a couple of weeks in Reno visiting with her sister, Mrs. W. D. Phillips.

Judge Belknap is improving rapidly. A letter received yesterday by Mrs. J. R. Bradley stated that from present indications the Judge will be all right in a short time.

Prof. Oscar Hilderbrandt, our well known piano tuner, after an extended trip through Eastern Nevada and all points around Lake Tahoe, has returned to Reno and is now ready for business.

Mrs. Cohn and daughter Bert of Carson, accompanied by Messrs. Zoberbier and Toby Cohn, drove over from Carson in a buggy and after spending a pleasant day in Reno returned yesterday morning.

D. L. Sayre of the Chloride Belt arrived last evening from Candelaria. He says primary elections were held for delegates to the Esmeralda county People's party convention and a lively interest was manifested.

A young gentleman in town has a superfluous lot of wire buttons, and would like to rid himself of a few. He purchased them, unsight, unseen, at the old-horse auction sale last Saturday. You may have them at your own price.

MANGLED BY THE CARS.

An Unknown Man Killed by the Train Last Night.

Last night, at about a quarter of twelve o'clock, a young man belonging to the Salvation Army came in town and informed officer John Green that an unknown man had been run over and killed by the train just above the slaughter-house, on the railroad. Officer Green hunted up Coroner Peers and Undertaker Sanders, who took a wagon and went down to the scene of the catastrophe. The man was found to be horribly mangled, having been run over the second time by a freight train which arrived a few moments after the Salvation Army man gave the announcement. The head, both legs and one arm was severed from the body, presenting a sickening spectacle.

The remains were gathered up and brought to town. Deceased was a stranger, about 40 years of age. A poll tax receipt found on his person gave the name of Henry Brown, Napa, Cal. He was large in stature, with black beard and closely cropped curly hair. There were no indications as to how or in what manner the accident was caused. The name of the young man who brought the news to town was Charley Charleston.

Board of Equalization.

The Board of Equalization met yesterday, member Pierson being absent. On a number of questions a dead-lock ensued and a decision, therefore, could not be arrived at. As the matters appertained to railroad assessments, the State Board of Equalization will settle them.

The assessment of the Verdi Mill Company was ordered to stand as raised, viz: From \$13,800 to \$15,000.

F. Robb, same, from \$900 to \$1,200.

John Smith, same, \$900 to \$1,200.

Mrs. E. McKee, same, \$1,500 to \$2,000.

Reno W. L. & L. Co., same, \$42,290 to \$45,000.

Annie Maher, same, \$1,150 to \$1,500.

Samuel Brown's assessment was reduced \$1,000 and Manning & O'Connor's \$500.

The Board adjourned to meet at 10 A. M. to-day as a Board of Commissioners.

Shut Down.

That's what they call it when the mill closes and the work stops. The same term is applied to the liver when you suffer with Biliousness and Sick Headache. There is no action. A few doses of Simpson's Liver Regulator will soon set the liver going properly, and keep the bowels regular. Take the Regulator now and then to prevent any re-occurrence of those distressing symptoms.

Removed.

The sample office of Wanemaker & Brown has been removed to the Fletcher building one door north of the Justice Court. The finest line of samples of ready made and tailor made clothing on exhibition. Prices lower than the lowest. Quality, fit, etc. guaranteed in every particular. Call and inspect the goods. 2312

LAKE GREENO.

The New Boom City in Honey Lake Valley.

Construction of an Immense Dam—What the Company Purpose Doing.

LAKE GREENO, Cal.,

September 4, 1892.

Of all modern methods of education, object teaching is the most profitable of convincing argument. As applied to the development of an arid region the work now being carried on in this vicinity will be an object lesson of great value, if successful. The question of irrigation and the reclamation of arid regions is one that is engaging the attention of the leading statesmen of America.

All the land in America now susceptible of cultivation by natural means, is taken. The adventurous spirit, the enterprising men of small means who are pushing westward for new homes, have turned their attention to that vast area of land between the Rocky Mountains and the Sierras, known as the Great American Desert.

It is fast becoming a question with America's settlers and laboring men, not "how can we get rich?" but "how can we make a living?" The price of land in the East commands such a price that men of limited means are unable to buy enough land to make a living on.

After having taken up such land the least labor upon which would produce greatest results, they have been compelled to turn their attention where mental ingenuity must be exerted in connection with physical prowess to bring a condition of affairs suited to a healthy and wealthy community.

In the present arid region every available spot of land within easy reach of water has been taken up. Every bit of land situated at the foot of vast mountains, whose bosoms are reservoirs of an endless supply of life-giving water is under cultivation. Every river has been diverted from its original source to water a stretch of desert now made to bloom as the rose. Artesian wells have been bored, lakes tapped and all inventions necessary for successful irrigation been tried. To-day there still lies beneath the burning rays of the Western sun, hundreds of thousands of acres, sun-burnt, sun-dried, dusty, sagebrush plains, whose dull, dun color present an unbroken stretch for hundreds of miles. The only way to reclaim this land is by immense storage reservoirs. The first attempt in this line of development is now being tried at this place. It is purely experimental, but the men whose capital and industry have been put to it denote by such action that they have faith in the enterprise.

THE LOCATION.

At the foot of Long Valley, near where the narrow confines of the canyon broaden into wide extending plains, the stream which has its source sixty miles south and which drains as its watershed over 400 square miles, runs through a narrow canyon. It is at this place that Nature has so providently provided, that the dam is being constructed. Below, and extending northward to the lake is over 100,000 acres of fine sagebrush land capable of producing abundantly of all fruits and cereals adapted to the climate.

THE COMPANY.

The Honey Lake Land and Water Company, under the management of Mr. Schidler and Fred Luke have undertaken the construction of the dam. It is the purpose of the purpose of the company to give with each acre of land a perpetual water right. Men who take up land are at liberty to pay for it in work upon the dam at the rate of \$1.50 a day for laborers and \$2.50 for a man and team, and found. The land is to be covered by a system of irrigating canals 180 miles in length.

THE CONSTRUCTION OF THE DAM.

Is being made under Mr. W. H. Earl, C. E. The chief engineer is P. M. Norcross, C. E. with F. M. Smith, C. E. and O. L. Houss, C. E., as assistants. The dam, when constructed, will be 115 feet high, 500 feet wide at the base, 1,000 feet from bank to bank in width. It will back up the water six miles and cover 1,281 acres to an average depth of 34 feet or will hold 35,000 acre feet of water which means 35,000 acres covered one foot deep with water. Seventy men and 50 teams are at work. The construction of the dam is in competent hands. They have dug a trench 20 feet deep from side to side, reaching hard pan. This is called the center grading core.

It has been filled little at a time by a fine quality of clay, water poured upon it and then puddled by means of horses, which renders it impervious to water. Three such parallel trenches dug 30 feet beneath the original surface of the stream, are being thus clay puddled, yet while it makes the construction of the dam slow it renders it a perfect one. The worst of the work is over and it is now in a fair way for an early completion. Outlet gates of solid masonry are being built at the side. From the dam an irrigation canal five feet deep eighteen feet wide on the bottom and 28 feet wide at the top, will be constructed to carry the water to the land. The management confidently hopes to have the dam completed and water upon the land during the coming Spring. This dam it is claimed, will hold sufficient water to irrigate 75,000 acres during the irrigating season.

CAMP TAYLOR.

The little town just below the dam is called Camp Taylor. The postoffice is Lake Greeno. There are in camp about forty houses, 75 men, a dozen families and thirty school children. The present situation of the town is only temporary. There is a large boarding house, stables, store, postoffice and other buildings. That the land is capable of producing is evidenced by the productions now on exhibition, having been raised in the near vicinity. The town site is about 2 1/2 miles

from the dam to the east on a slight raise which commands a magnificent view of the surrounding valley. Lots are being placed on the market at cheap prices and easy terms.

The management of the company are very obliging and make a stranger welcome and doubly so. They met the people who came at the depot and conveyed them to camp, where they were treated royally, and in covered carriages drawn by good horses were taken for a ride around the surrounding country.

From a point not far from the camp just at the edge of the foothills one can obtain a view of this wonderful valley surrounded on all sides by the lofty Sierras which fade into blue mists in the west and beyond Susanville. The lake of which so much has been written lies at the north end of the valley. On the west shore lies the promising city of Amadeo. From the edge of the lake to the mountains lies an immense tract of land which was formerly in past geological periods covered with water. The soil is sandy and with water can be made to produce abundantly. Other sections of the valley which are already under cultivation produce excellent crops of wheat, barley, oats, corn, rye alfalfa, timothy and maize. The potato crop is immense. Sugar beets are raised with a large per cent of saccharine. The Honey Lake apples have already a coast reputation. The climate is mild and even.

THE FUTURE SUCCESS.

of this venture depends solely upon the prospect of a sufficient water supply. They claim that this can be obtained and anyone who doubts it can easily be convinced of its feasibility by inspecting for himself the works now being constructed and the perseverance with which said work is being prosecuted. It is well worth a visit, and the man hunting a new home would do well to investigate the project.

OF INTEREST TO NEVADA.

The success of this venture will be watched with interest by Nevadans. If successful it will demonstrate the feasibility of such projects in Nevada. There are a dozen places offering equally great advantages in the Battleborn State and if they could be carried out would double our population in five years. It requires capital, perseverance, unbounded faith and energy. Under such conditions any enterprise must be a success. If in five years Honey Lake City, now but existing on paper, has a population of 2,500 there is no reason why Nevada under the same conditions and by the application of similar methods cannot double her population.

Free coinage as an incentive to effort and an air line road as a means of transportation with irrigation, reclamation and storage reservoirs to water our thirsty plains pregnant with undeveloped wealth, the State of Nevada will be what the dreams of her truest friends have pictured.

VAN DUZER.

PEOPLE'S PARTY CONVENTION.

Arrangements for Holding Primary Elections and Nominating a County Ticket.

The Brass Band yesterday played patriotic airs at the Opera House as a signal for the assembling of the Mass Convention to organize a county People's party. There was a fair attendance, several outside precincts being represented by delegates. Hon. Thomas V. Julien called the meeting to order, stated the object for which it was being held, and that the first thing in order was the election of Chairman.

Judge Webster nominated B. F. Leete, who was unanimously elected Chairman of the Convention.

A motion that Charles A. Norcross be elected Secretary of the Convention was unanimously adopted.

CHAIRMAN LEETE'S REMARKS.

The Chairman addressed the meeting, stating the Convention had assembled for the organization of a new party. The wonderful President whom we had when this country was in the throes of war said: "You can fool all people some time; you can fool some of the people all the time, but you can't fool all the people all the time." We have arrived at that juncture in political affairs when the old parties cannot fool all the people all the time. No question in which civilized people are interested is perhaps so little understood as the money question. The power of money is immense; what money is and what money consists of are different questions. Sherman of Ohio says one dollar should be as good as another. What is a dollar? Many say a dollar is the unit of value. I think you will agree with me when I say to you that value is that which is an object of human desire and can only be obtained by labor. Take this chair. We all know that the raw material used in making it was in the tree, as it stood in the forest. Subtract the value of that raw material as it stood in the tree from the value of the tree and the remainder is the value of human effort. This knife has a bookbinder handle. The value of that handle is the value of the labor expended upon it less the value of the log's horn as he passed through the forest before the hunter saw him; the rest of the knife is iron, which represents the value of the labor expended upon it, less the value of the raw material before the miner extracted the ore. So it is with all value, and I warrant that 99 1/2 per cent of it is the result of human effort. What we complain of to-day is the villany of class legislation, which has brought us to the verge of bankruptcy through the power of money. But what I want to talk about is the per centage of value produced by human labor. Suppose we piled up enough human effort to construct this building and we want to divide it into units. How would you divide it? I would say the unit of labor is the amount of effort a man puts forth in a day. If labor creates value what is the unit of value? I answer the day's work of a man, and in that I take issue with Sherman and others who have discussed the question. If you wish to secure the labor of this or that man he will measure its value to you in dollars,

Kitchen Economy

Actual tests show the Royal Baking Powder to be 27 per cent. stronger than any other brand on the market. If another baking powder is forced upon you by the grocer, see that you are charged the correspondingly lower price.

Bread, biscuit, cakes and muffins are not known in most delicate and perfect quality where Royal Baking Powder is not used.

One man's labor may be worth one dollar another man's ten dollars and a third man's fifty dollars."

Mr. Leete showed the necessity for organizing a third party in the Nation, State and County, giving plain and conclusive reasons for the same, and his remarks were received with applause. The Chairman having announced that the meeting was ready to proceed to business, Judge Webster offered the following, which were unanimously adopted:

Resolved, By the citizens of Washoe county here assembled that a political party be and is hereby organized, and that the political body organized be styled "People's Party" of Washoe county.

Resolved, That the citizens here assembled and participating in this meeting are a convention of the People's Party of Washoe county.

Resolved, That this convention is entitled to like rights and subject to such rules and usages as other conventions of the people and political parties when assembled for political and party purposes. That the officers chosen by the meeting shall be deemed to be and are the permanent officers of the convention.

COMMITTEE ON ORDER OF BUSINESS.

On motion of Mr. Jullien a committee of ten was appointed by the Chair on Method of Procedure and Order of Business. This committee consists of Judge I. B. Marshall, J. N. Evans and J. B. McCullough of Reno; Daniel Huffaker of Browns; J. M. Lamb of Franktown; D. W. Bryant of Glendale; E. J. Gregory and James Farwell of Wadsworth; and E. Peckham of Browns.

On motion of Mr. Foulks the meeting adjourned until 8 o'clock P. M.

EVENING SESSION.

The Brass Band again discoursed excellent music at the Opera House last evening and a large crowd assembled when Chairman Leete came down with his gavel. The report of the committee on Platform and Resolutions was called for by the chair. Judge Webster then read the following:

PREAMBLE AND RESOLUTIONS.

The People's party of Washoe county, Nevada, in mass convention assembled, endorses the nominees of the Omaha Convention, Gen. James B. Weaver and Gen. James B. Field, and the platform of said convention.

"We demand a National currency, safe, sound and flexible, issued by the General Government, full legal tender for all debts, public and private, and that, without the use of banking corporations, a just, equitable and efficient means of distribution to the people at a tax not to exceed two per cent. per annum be provided as set forth in the sub-Treasury plan of the Farmer's Alliance, or a better system. Also, by payments in discharge of the Government's obligations for the public improvements.

"We demand the free and unlimited coinage of silver and gold at the present legal ratio of sixteen to one.

"We demand that the amount of the circulating medium be speedily increased to not less than \$50 per capita.

"We demand a graduated income tax.

"We believe that the money of this country should be kept as much as possible in the hands of the people, and hence demand that all State and National revenues shall be limited to the necessary expenses of the Government, economically and honestly administered.

"We demand that postal savings banks be established by the Government for the safe deposit of the earnings of the people and to facilitate exchange.

"Transportation being a means of exchange and a public necessity, the Government should own and operate the railroads in the interests of the people.

"Telegraph and telephone lines, like the post office system, being a necessity for the transmission of news, should be owned and operated by the Government in the interest of the people.

"Land, including all the natural sources of wealth, is the heritage of the people, and shall not be monopolized for speculative purposes, and alien ownership of land should be prohibited. All land now held by railroads and other corporations, in excess of their actual needs, and all lands now owned by aliens, should be reclaimed by the Government and held for actual settlers only.

"If Congress should determine the Nicaragua Canal, or any National waterway necessary, the same should be constructed, owned and operated by the Government, and we oppose any subsidy or National aid to any private corporation for any purpose.

"We demand free ballot and fair count in

all elections, and pledge ourselves to secure it to every legal voter without federal interference, through the adoption by the States of the Australian or secret ballot system."

That the railroad as a factor in our civilization is only valuable as a safe, cheap and rapid means of transportation for persons and property. That the monopoly of railroads has subverted their usefulness to the people by mismanagement in operation, converting them into a dead and rapid means of transportation. We, therefore, heartily endorse the scheme of the San Francisco and Great Salt Lake Railroad Company to construct a competing line of road across our State and country.

We demand that a Constitutional Convention be called by the next Legislature for the abolition of unnecessary State offices, the reduction of salaries and the adoption of measures for the general simplification and economical management of our State and county governments.

That the demonetization of silver was and is revolutionary and its continued demonetization is in the interests of the enemies of labor, that the miners have been robbed directly of millions, and the people at large indirectly of untold millions more. Through its demonetization large fortunes have been secured by some, and immense fortunes by others at the expense of the labor and industry of the people, and our commercial and industrial interests languish.

That this convention of the People's party of Washoe county pledge the support of its members to all proper and just enterprises for the development of Washoe county and the State, which will protect the people in their property and material interests against enemies foreign and domestic.

That one of the chief sources of prosperity in a State lies in the ability of the people to govern the State and care for its interests by directing its business.

GEO. A. LIT, Chairman.

WM. WEBSTER, Secretary.

The Preamble and Resolutions were adopted. The Committee on Permanent Order of Business and Method of Procedure reported as follows which was read by the Secretary:

Your Committee on Order of Business beg leave to submit the following:

First—The election of a permanent President and Secretary.

Second—The election of a County Central Committee, consisting of twenty-five members of the following names:

Reno—Prescott—H. H. Book, Geo. W. Mapes, B. F. Bobo, G. A. Norcross, R. S. Osburn, J. B. McCullough, W. J. Brandon, J. N. Evans, L. J. Eliot, Jas. Sanderland.

Browns—Dan Huffaker, Geo. E. Peckham.

Franktown—T. A. Read.

Glendale—George Alt, R. H. Kinney.

Verdi—John Montz, J. E. Sonohereau.

Poavies—A. D. Griffin.

Salt Marsh and Pyramid—Frank Dickinson.

Wadsworth—W. H. A. Pike, Geo. W. Sawyer.

A majority of whom shall have power to call a county convention of the People's party to be held at Reno, at as early a date as they may think practicable for the purpose of nominating a county ticket for Washoe county, and that they have full power to designate the number of delegates to attend said Convention from each precinct in the county, and the time and place for the election of such delegates. That at the election of said delegates the following shall be required of each voter:

"I endorse the principles of the People's party as set forth in the Omaha platform and will vote its nominees and will support the nominees of the People's Party Convention of Washoe county at the ensuing election."

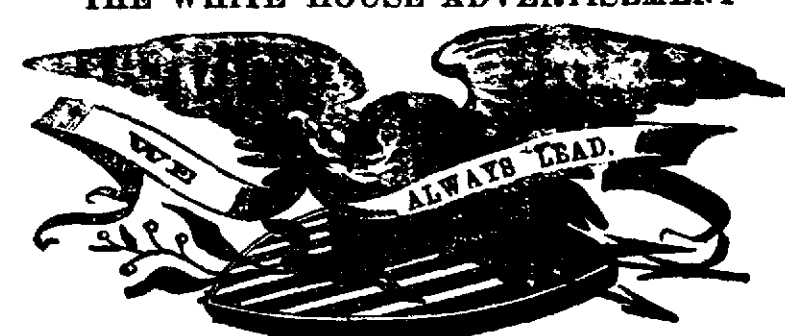

All which is respectfully submitted,

I. B. MARSHALL, Chairman of the Committee.

A number of speeches were made by different members present, including T. V. Julien, J. P. Foulks, W. H. A. Pike, I. B. Marshall, B. F. Bobo and others. A large and enthusiastic body of citizens were in attendance, and the meeting was characterized throughout by decorum and enthusiasm. In moving to adjourn, Mr. Pike of Wadsworth moved that the convention adjourn to meet at the primaries when they should be held and at the polls in November.
